

Challa Sunil

Senior Lead ServiceNow Developer | AI Agents & Automation Architect

challasunil.cs@gmail.com | +91 7032039102 | Hyderabad, India | linkedin.com/in/challa-sunil-121984109

PROFESSIONAL SUMMARY

Lead ServiceNow Developer with **8+ years** of experience architecting and delivering enterprise-grade solutions across ITSM, HRSD, CSM, IRM, SecOps, and AI-powered automation. Proven track record at Virtusa, Capgemini, and CGI in designing agentic AI workflows, Now Assist integrations, custom scoped applications, and cross-platform REST integrations.

KEY HIGHLIGHTS

AI Agents & Now Assist Implementation	10 ServiceNow Certifications
Custom Scoped App Architecture & POC Delivery	50% self-service uplift via Service Catalog redesign
REST API & Third-Party System Integration Expert	35% manual process reduction through workflow automation

PROFESSIONAL EXPERIENCE

Lead ServiceNow Developer - Virtusa

Mar 2025 - Present | Hyderabad, India

- Architected and deployed AI Agent workflows using ServiceNow Now Assist and GenAI capabilities - including custom prompt engineering, agentic task orchestration, and Health Scan report automation.
- Built complete autonomous CMDB Health remediation with Predictive Intelligence (PI) - 7 categories, 12 health scores, Agent-to-Agent orchestration.
- Designed and implemented third-party integration POC enabling seamless data flow from external systems into ServiceNow via REST API.
- Led Customer Service Management (CSM) architecture analysis and delivered a strategic improvement roadmap.
- Positioned as team AI Agent SME, delivering internal knowledge sessions on Now Assist and agentic flows.

Senior ServiceNow Developer - Capgemini

Apr 2022 - Mar 2025 | Hyderabad, India

- Designed and delivered an enterprise Service Catalog - increasing user self-service adoption by 50%.
- Engineered complex Flow Designer automations covering Catalog Items, Order Guides, approval chains, and SLA-driven workflows.
- Reduced manual process time by 35% through automated workflows, Business Rules, UI Policies, and Client Scripts.
- Integrated ServiceNow with Salesforce and JIRA via REST API - improving cross-platform data accuracy by 15%.
- Configured HRSD module - HR Case Management, lifecycle activities, and targeted communication templates.
- Led Vulnerability Response (VR & AVR) configuration lifecycle and remediation training sessions.
- Managed full environment migration lifecycle (Dev to QA to Prod) using Update Sets and Import Sets.

ServiceNow Administrator / Developer - CGI

Oct 2018 - Apr 2022 | Hyderabad, India

- Managed ITSM operations - Incident, Problem, Change Management - maintaining platform stability.
- Reduced incident recurrence rates by 15% through systematic root cause analysis and preventive automation.
- Developed UI Policies, Data Policies, UI Actions, and Catalog Items for self-service UX.
- Administered user/role management, business services, and CMDB configuration across multi-tenant instances.
