

Challa Sunil

Senior Lead ServiceNow Developer | AI Agents & Automation Architect
challasunil.cs@gmail.com | +91 7032039102 | Hyderabad, India | [My Portfolio: challa-sunil.github.io](#)

PROFESSIONAL SUMMARY

Lead ServiceNow Developer with **8+ years** of experience architecting and delivering enterprise-grade solutions across ITSM, HRSD, CSM, SecOps, SAM, and AI-powered automation. Proven delivery across **5 industry domains** — Insurance & Healthcare, Banking, Retail & Manufacturing, Telecom, and Energy. Expert in Agentic AI, Now Assist, CMDB Health governance, Flow Designer orchestration, and cross-platform REST integrations.

KEY HIGHLIGHTS

10x ServiceNow Certified (incl. ArchX)	5 Industry Domains Delivered
AI Agents & Now Assist Implementation	50% Self-Service Uplift via Catalog Redesign
REST API & Third-Party Integration Expert	35% Manual Process Reduction

PROFESSIONAL EXPERIENCE

Lead ServiceNow Developer — Virtusa

Mar 2025 – Present | Hyderabad, India

- Architected AI Agent workflows using Now Assist and GenAI — custom prompt engineering, agentic task orchestration, and Health Scan automation.
- Built autonomous CMDB Health remediation with Predictive Intelligence — 7 categories, 12 health scores, Agent-to-Agent orchestration.
- Designed third-party integration POC enabling seamless REST API data flow from external systems into ServiceNow.
- Led Customer Service Management (CSM) architecture analysis and delivered strategic improvement roadmap.
- Positioned as team AI Agent SME, delivering internal knowledge sessions on Now Assist and agentic flows.

Senior ServiceNow Developer — Capgemini

Apr 2022 – Mar 2025 | Hyderabad, India

- Designed enterprise Service Catalog across insurance and banking domains — 50% self-service adoption uplift.
- Engineered complex Flow Designer automations — Catalog Items, Order Guides, multi-level approvals, SLA-driven workflows.
- Reduced manual process time by 35% through Business Rules, UI Policies, Client Scripts, and automated workflows.
- Integrated ServiceNow with Salesforce and JIRA via REST API — 15% cross-platform data accuracy improvement.
- Configured HRSD module — HR Case Management, lifecycle events, onboarding/offboarding, targeted communications.
- Led Vulnerability Response (VR & AVR) configuration lifecycle and remediation training sessions.

ServiceNow Administrator / Developer — CGI

Oct 2018 – Apr 2022 | Hyderabad, India

- Managed ITSM operations — Incident, Problem, Change Management — maintaining platform stability.
- Reduced incident recurrence by 15% through root cause analysis and preventive automation.
- Developed UI Policies, Data Policies, UI Actions, and Catalog Items for self-service UX improvement.
- Administered user/role management, business services, and CMDB configuration across multi-tenant instances.

KEY PROJECTS

- CMDB Health Assessment Agent** — Autonomous AI agent with Predictive Intelligence, 7 health categories, 12 scoring metrics, Excel reports, Agent-to-Agent remediation.
- Telegram x ServiceNow Integration** — Bidirectional via Bot API — ticket creation, status updates, approval actions, rich card responses.
- Anomaly Detection Pipeline** — Multi-layer: Rule Engine, GenAI, Predictive Intelligence, coordinated by Agentic Orchestrator.
- Enterprise Service Catalog Redesign** — 50% self-service uplift across insurance and banking, Order Guides, SLA-driven fulfilment.
- Global HR Service Delivery** — Multi-country onboarding, lifecycle events, compliance checklists, employee document templates.
- SNow Smash Quiz Platform** — Real-time multiplayer ServiceNow quiz with Firebase sync, leaderboards, Netlify deployment.
